All persons interested are cordially invited to come, and persons wishing to place blossoms in the exhibition are requested to have them at the hall by nine o'clock tomorrow morning. The admission will be free.

STOCK EXCHANGE EXTREMELY DULL

If the Stock Exchange was any deadlier than today's sheet shows, it would be all ready to be buried. Ten shares of Oahu unchanged at 28 and \$1000 Olaa sixes at the prevailing rate of 97.50 are the only items of business, and these are reported from between boards.

"There is no reason for the dullness other than the political situation," said G. H. Buttolph, broker, this morning. "Two things are pulling in opposite directions—the expectation of extra dividends and the tariff uncertainty from this year's elections."

"It is always dull this time of year, anyway, but still the prices are steady. If there was any trading, there would be more fluctuations."

PINEAPPLES.

The Hawaiian Islands have developed a large business in pineapples, and the business at Singapore is assuming large proportions. Hawaiian planters select sandy, well drained loam, avoiding hills or heavy land, and plant 10,000 to the acre. An average fruit weighs 4 lbs. The profit, less cultivation and cartage, yields 800 pesos per acre, the pines selling at 2 centavos each to the canning factory; 10,000 to 12,000 plants to the acre do not overcrowd. Twelve to fourteen months are required for maturing. Selections of varieties are important, also the avoidance of picking unripe pines, as the fine flavor thereby is lost.

Pineapple wine, properly made, is one of the most delicious of drinks and possesses digestive qualities. The pineapple industry should become an important one in the Philippines. To a light shade is desirable, fine fruits are grown in Mindanao without shade. The writer recently ate of some large, delicious fruit, free from acid and fiber, which were grown in Davao District—Mindanao (P. I.), Herald.

STARRETT WOULD GIVE CRATES TO ONION-GROWERS

A meeting of the Board of Immigration was held in the directors' room of T. H. Davies & Co. yesterday afternoon. There was not a quorum present, and the only business that could be done was whatever secured unanimous consent. Thus it was that a proposition submitted by Market Superintendent Starrett, to furnish crates to onion growers for their shipments, on the credit of the board, was, after a long discussion, deferred to another meeting.

President Ivers and E. H. Wodehouse were strongly in favor of giving this kind of encouragement to the growers, especially the smaller ones, as being in line with the intent of the Legislature in creating the marketing division of the board.

F. L. Waldron, on the other hand, stood out to the last against the proposition, holding that it was a commercial scheme foreign to the board's functions.

Mr. Starrett exhibited a sample of a neat crate, which can be supplied at the Puna lumber mill at the rate of 10,000 crates for \$2000. The sample came from Cadillac, Mich.

Secretary Ralph A. Kearns submitted a cablegram from Dr. Victor S. Clark, dated St. Petersburg, September 1, saying: "I think the immediate prospect good. Please wire instructions to McClellan to ask the State Department to please send me a letter of instructions to the embassies of Europe."

It was deemed unnecessary to comply with this request in view of the fact that the secretary had already procured from Governor Peary proper credentials for Dr. Clark.

A letter from Mr. Halsey, U. S. inspector of immigration here, covering a letter from Commissioner Backus in San Francisco, was submitted, which asked the local board to pay the expense of deporting a certain Russian immigrant, who arrived at Honolulu in the steamer Siberia on March 25, 1910, and was now a public charge and suffering from a chronic disease in San Francisco. Secretary Kearns having verified the facts, the board allowed the claim.

It was ordered that cabled instructions be sent to Raymond C. Brown in London to join Dr. Clark in St. Petersburg. Also, it was voted that Mr. Brown's engagement be continued until June 30 next.

AMERICAN CAPITAL IN THE ORIENT.

The United States Rubber Company is one of the largest rubber consumers in the world. Their volume of business amounted to over \$77,500,000 during the past two years. Last year they launched into the plantation business with a view of eventually growing a large part of the rubber needed in their own business.
They purchased 80,000 acres in Sumatra and have already planted 20,000 acres with more than 2,500,000 rubber

trees, making it already the largest rubber plantation in the world. 10,000 coolies are employed which are gathered with aid from the government of Sumatra under definite contracts.—Mindanao, P. I., Herald.
